

GALAXY 2113 – 3rd-4th Grade

The House Curriculum

Imagine being in 3rd or 4th grade and finding stories in books that are so exciting that you just can't put them down! Then, through discussions with your classmates, you generate so many new ideas that you just have to write them down. Through fax and email connections to other schools, you become a publisher to share and compare your ideas with other students from across the entire county. This is what The HOUSE is all about.

Delivery Mode	Platform	Software	Length
Video, Hands-on*, & Web	VHS & PC/Mac	Netscape & Internet Explorer	Full school year

**Also available in Spanish*

Your students explore the seven themes using the video series, great children's literature, and their own real-life experiences:

- **People Are More Than They Appear to Be:** Resisting stereotypes by coming to see others as multidimensional
- **Establishing Your Own Space:** Maintaining personal space and negotiating space shared with others
- **Who Is a Hero:** Exploring the nature of heroism in a complex world
- **Be True to Yourself:** Learning when to follow your own path and when to go along with others
- **People Need People:** Looking at interdependence among people of all ages and cultural backgrounds
- **People Working Together Can Make a Difference:** Exploring how collaboration and teamwork can accomplish goals impossible for one person to do alone
- **It's Not Fair:** Considering what makes something fair or unfair from many points of view
